Corporate Development Milestones

FLYHT Acquisition

- Deal closed December 20, 2024
- Enterprise value of approximately \$23M
 - ◆ ~\$13.7M in equity and assumption of debt (debenture and Government debt)
- Approximately \$20M in sales
 - ◆ Nearing completion of 3 new/updated aftermarket products

Key Strategic Benefits

- Increase FTG's penetration of the Commercial Aerospace Aftermarket
 - ◆ High margin business
- Increase FTG's content on Airbus aircraft
 - ◆ Airbus is the leading performer in the Air Transport market
- First Avionics products for FTG
 - ◆ Next step up in technology
- Insource manufacturing of FLYHT products to FTG sites
 - ◆ Capture manufacturing margin in house

FLYHT Acquisition

Products

- **Satcom communications via Iridium Satellite system (AFIRS 228)**
 - ◆ Backup aircraft safety communications system
 - ◆ Aircraft data transmission system for enhanced operations management
 - ◆ In service for many years, with design update just completed
 - ◆ Factory option for all Airbus aircraft – via licencing arrangement – 200-300 installed annually
 - Licencing revenue to resume in 2026
 - ◆ Hardware sales and satellite data service sales

- **Wireless Quick Access Recorder (WQAR) (Edge and Edge +)**
 - ◆ 5G wireless connection from aircraft to airline flight operations
 - ◆ Collect data in flight and transmit aircraft data while at an airport
 - ◆ Development just completing – for two versions
 - ◆ Hardware sales and wireless service sales

- **Weather - Water Vapour Sensing System (WVSS II)**
 - ◆ Systems installed on aircraft to collect high altitude weather and water vapour data
 - ◆ System update nearing completion
 - ◆ Data sold to National weather agencies such as NOAA and UK Met
 - ◆ Hardware and weather data sales

FLYHT Acquisition

Path Forward

✿ **Reduce operating costs**

- ◆ Reduce internal costs - FLYHT restructured in September 2024 significantly reducing labour costs
 - Product development efforts winding down
- ◆ Eliminate public company costs
- ◆ Total savings estimated at ~\$4M annually

✿ **Aggressively sell all products against existing Supplemental Type Certificates (STCs)**

- ◆ STCs are required government approvals (Transport Canada, FAA, EASA, CAAC) to install equipment on specific aircraft types in their jurisdiction
- ◆ Satcom product has wide range of STCs
- ◆ New product priority STCs are Boeing 737 and Airbus A320 variants for the EDGE products

✿ **Pursue new STCs for additional aircraft types and countries**

✿ **In-source product manufacturing to FTG site(s)**

✿ **Shield future profits with existing tax losses at FLYHT**

Future M&A Considerations

Future Acquisitions

Key criteria for future acquisitions include:

- Aligned with FTG market and product focus
- Expand technology offering
- Expand geographic coverage
 - Europe for commercial airspace
 - Europe, India, other top ten countries outside of US for defence
- Accelerate FTG's penetration of the aftermarket segment
- Drive up plant utilization
- Attractive price, attractive multiple
- Accretive to earnings

Capital Allocation

Capital allocation plans include:

1. Invest organically to ramp throughput and drive technology
2. Pursue corporate development opportunities
3. We have an NCIB to buy back up to 5% of outstanding shareholder stock
 - 616,400 shares repurchased since 2022

Deploy cash available to improve profitability and shareholder returns

US Tariffs

- The new US Administration is implementing tariffs on imports into the US
- FTG sales include approximately \$55M in sales to the US from Canada or China
- Mitigation plans include:
 - ◆ It will take time for the Aerospace and Defence supply chain to move sources of supply so any negative impact to FTG would be felt over time
 - ◆ The US-based acquisitions by FTG in 2023 have expanded our US manufacturing capacity The acquisition of FLYHT in December 2024 reduce our exposure to tariffs as their largest customer is in Canada and they sell globally
 - ◆ We are moving to be more locally focused with US sites selling into US customers and non-US sites selling to non-US customers
 - ◆ FTG's is focusing on growing content with Airbus that will reduce focus on the US market
 - ◆ FTG is developing plans to add sales resources in Canada, Europe and Asia
 - ◆ The recent win of cockpit assemblies on the DeHavilland Canadair 515 water bomber will be Canadian revenue generated in our Canadian aerospace site
 - ◆ FTG's plans to open a facility in Hyderabad India will help open a new non-US market
- ◆ Today our Canadian sites are least impacted by US Tariffs
 - No tariffs on input costs
 - No tariffs on shipments to US customers
